HEAT PRESS

SISER TS-ONE HEAT PRESS

STABLE, SOLID & USER FRIENDLY

HEAT PRESS

| OVERVIEW |

The TS-ONE is Siser's most common heat press - this is a user-friendly machine, stable and solid, and opens both vertically and laterally in order to ensure very quick applications on any type of textile. A digital display indicates the temperature of the higher plate, while the alarm reminds the user when the transfer is ready.

The TS-ONE machine, as it is equipped with electrical parts operating at a voltage between 50 V and 1000 V, is subject to the Low Voltage Directive 2014/35/UE (formerly 2006/95/CE) and the Electromagnetic Compatibility Directive 2004/108/CEE.

Since there are no motor-driven moving parts, as the movement of closure and opening of the plates is controlled by hand, the TS-ONE does not come within the field of application of the Machinery Directive2006/42/CE. Nevertheless, the design and construction of the TS-ONE has been made in compliance with the essential safety requisites foreseen by Directive 2006/42/CE.

| KEY FEATURES |

- Curved lower metal plate and curved upper heating plate
- Large work space
- Patented stucture designed for simple, reliable application
- Digital temperature display
- Audible alarm
- Consistant pressure and heat across the platen
- Good for both small custom jobs and higher volume production

Dimensions

Dimensions (closed):	55 x 65 x 66 cm (w x d x h)
Dimensions (open)	105 x 115 x 66 cm (w x d x h)
Weight	46kg

Specifications

Power	2000 watt
Voltage	220 volt
Platen Size	38 x 50 cm
Max Temp	220°C
Platen options	platens for caps platens 15 x 15 cm platens for shoes platens 38 x 10 cm platens 30 x 15 cm

Optional Items

Plates for caps
Interchangeable plates for heat applying onto caps.
The cap set consists of an upper heating plate and a lower, bent supporting plate.

Plates for shoes
"Achille" platenfor heels of shoes
Interchangeable plates for heat applying onto shoes.
The cap set consists of an upper heating plate and a lower, bent supporting plate.

Lower platen H

Lower platen
Interchangeable plates for heat applying of small logos and images.
Plates dimensions: cm. 15×15.
30cm x 15cm
38cm x 10cm
