- Precise temperature control
- Accurate timer control
- Adjustable pressure with even distribution
- Lockable settings for repeat production
- Switch between °C and °F
- Lightweight & easy to transport
- Space saving

Dimensions

Dimensions (closed):	42 x 81 x 80 cm (w x d x h)
Dimensions (open)	42 x 63 x 28 cm (w x d x h)
Weight	27kg

Specifications

Power	1680 watt
Voltage	240 volt
Transfer area	38 x 38 cm
Max Temp	220°C

Additional info

Draw-Out Lower Platen
The slide-out lower platen creates a safer, heat-free working area that makes garment loading and design positioning faster and more comfortable. Use MerchMaker™ as a traditional clamshell press or pull out the lower platen for easier alignment and improved workspace accessibility.

Precise Control
MerchMaker™ features intuitive digital controls with LCD display for quick adjustment of temperature and pressing time. The centrally positioned pressure adjustment knob ensures even pressure distribution across the entire platen, while the integrated countdown timer helps deliver consistent, repeatable results every time.

Compact Yet Powerful
Lightweight and easy to transport, MerchMaker™ fits seamlessly into small workspaces without sacrificing performance. Despite its compact footprint, it offers a generous pressing area suitable for t-shirts, tote bags, and full-front or back applications.
