HEAT PRESS

SISER TS-DOUBLE HEAT PRESS

EFFICIENT & EASY TO USE

HEAT PRESS

| OVERVIEW |

TS-DOUBLE is the new manual heat press from Siser. Thanks to its innovative design you can decorate any textile in an easy and professional way.

The swinging arm and the wide working space allow you to work fast and safely, while the double plates permit high productivity in less time.

The press is equipped with a digital display which indicates the temperature of the heating plate and an acoustic alarm which advises when application is ready.

Siser's TS Double is the top choice for those in need of an efficient but at the same time easy to use heat press. All of this combined to bring you this 2-plates-in-1 press, making it a perfect model for working on high numbers. Plates interchangeable with all Siser plate accessories.

| KEY FEATURES |

- Dual-platen design for increased productivity
- Swing away design
- Large 38 × 50 cm professional platen
- Digital temperature & time controls
- Audible end of cycle alarm
- Manual pressure adjustment
- Compatible with interchangeable platen accessories
- Professional construction

Dimensions

Dimensions (closed):	121 x 60 x 66 cm (w x d x h)
Dimensions (open)	121 x 70 x 66 cm (w x d x h)
Weight	61kg

Specifications

Power	2000 watt
Voltage	220 volt
Platen Size	38 x 50 cm
Max Temp	220°C
Platen options	platens for caps platens 15 x 15 cm platens for shoes platens 38 x 10 cm platens 30 x 15 cm

Optional Items

- Cap plates top and bottom
- Shoe plate "H"
- Shoe plate "Achille"
- Shoe plate "Combo" (H & Achille)
- Lower plate 15 x 30 cm
- Lower plate 38 x 10 cm
- Plate top and bottom 15 x 15 cm
- Silicone cover replacement

Certified

The TS-DOUBLE machine, as it is equipped with electrical parts operating at a voltage between 50 V and 1000 V, is subject to the Low Voltage Directive 2014/35/UE (formerly 2006/95/CE)and the Electromagnetic Compatibility Directive 2004/108/CEE.

Since there are no motor-driven moving parts, as the movement of closure and opening of the plates is controlled by hand, the TS-DOUBLE does not come within the field of application of the Machinery Directive 2006/42/CE. Nevertheless, the design and construction of the TS-DOUBLE has been made in compliance with the essential safety requisites foreseen by Directive 2006/42/CE
